Re. Report on the accounts of the Food Supplies dept. for the half year ending 31.12.1945. (1)

(1)

Letter no 6628/Accts dated 19/21 st March, 1946 from the Director of Food Supplies, forwarding for information a copy of the report on the accounts of the Food Supplies Department for the half year ending 31.12.1945 submitted by the Auditor and Accounting Officer of the department.

1) The report of the Auditor and Accounting Officer on the accounts of the Food Supplies Department for the half year ending 31.12.1945 and the eleven financial statements accompanying it are for perusal. The observations of the Auditor on the items noted below are of particular interest:—

(i) Cash position:— During the half year under report, the receipts from all sources exceeded the payments by Rs. 1,73,43,999-0-6. This is a record surplus which is due to the increased sales in the latter part of the half year on account of the worsening of the food situation. Thus enough funds were available for local and foreign purchases.

(ii) Purchases:— The local purchases amounted to Rs. 81,10,916-11-10 as against Rs. 1,26,39,439-6-6 in the corresponding half year in 1944. This reflects the hardening of the food supply situation. The balance under

credit purchases payable on account of local acquisition at the end of the half year was Rs. 30,41,797-3-9.

(iii) Sales } :- The local sales during the half year amounted to Rs. 3,69,79,284-7-10 which is a record figure for any half year so far.

(iv) closing Stock } The total closing stock as on 31-12-1945 was Rs. 1,27,89,974-7-0. As compared with the corresponding half year in 1944, the decrease in the stock of Ragi and other millets is about one Lakh of pallas. There is also a decrease of 30000 pallas under wheat and wheat products.

(v) Shortages } The shortage under the several articles for the State as a whole amounts to Rs. 1,89,274-4-0. This works out to 0.51 per cent on the total cash sales and compares favourably with the average shortage of about one per cent noticed in the previous half year. "As usual, the "shortage in rice has been heavy being Rs. 59,611-12-0 and this requires greater scrutiny over shortages under this item particularly in view of the difficult food situation."

(vi) Financial results } The financial results of the

S.424 Re. Report on the accounts of the Food Supplies Dept. for the half year ending 31-12-1945 (3

Working of the Food Supplies scheme during this half year is a loss of Rs. 4, 25, 454-9-5. which includes the loss of Rs. 47, 953-5-11 in the fuel and Charcoal operations in Bangalore city. The above loss is the lowest for the several half years in the past and is mainly due to the increased sales.

2) In forwarding the above report, the D.F.S. has stated that he is taking further action on the several points in the report "wherever such action is called for."

3) The previous Audit report for the period ending 30.6.1945 was transferred to Asst Secy. Finance, on 15.12.1945.

4) The Comptroller may be requested to offer his remarks on the present report.

59 4/1575

U.O.No.1590 Spl. dated the 15th May 1946.

Returned with compliments.

8) The special feature of the accounts of the Department during the half year was the abolition of the Personal Deposit Accounts of the Deputy Commissioners and introduc ion of the D.C.Bills System and the Auditor and Accounting Officer has reported that this arrangement has worked satisfactorily.

9) The Auditor has reported that there was no noticeable improvement in the receipt of monthly shortage statements except from two units. The prompt despatch of these statements monthly is a very important duty devolving on all the unit officers and action has to be taken to get the statements prepared regularly and despatched to the Auditor & Accountin- Officer monthly. The unauthorised system of removing from accounts, the shortages noticed as each consignment is disposed of, should not be continued in future.

10) As conditions for transport have sufficiently i improved, it is necessary that the cost of working of lorries under Government control is reviewed monthly with a view to see that it does not compare unfavourably with the rates at which private lorry owners work their lorries. It is also necessary to hand over this work entirely to private people as early as possible.

15) The importance of the monthly stock shortage statements is being repeatedly stressed and all the unit officers have been addressed to transmit these statements immediately.

The suggestion of the Comptroller that it is necessary to hand over the transport work to private people entirely, as early as possible, will be kept in view. For the present, however, the suggestion is not practicable in view of the difficult supply - - position.

Arrangements for a periodical review of the cost of working of lorries under Government control are -- being made as suggested by the Comptroller.

A 479-45-4

C.F. No. 46]

GOVERNMENT OF MYSORE

Encls.

OFFICE OF The Director of Food Supplies in Mysore, Bangalore.

Date 19th March, 1946.

To

The Secretary to Government,
Development Department (Food Supplies)
Bangalore.

Sir,

22 MAR 1946

Report on the Accounts of the Food Supply Department for the period ending 31-12-45.

5424 I have the honour to forward herewith for the information of Government a copy of the report on the Accounts of the Food Supply Department for the half year ending - - - 31-12-1945 submitted by the Auditor and Accounting Officer of the Department.

The report discloses a net deficit of Rs.4,25,454-9-5 in the transactions during the half year under report. This - - deficit is the lowest on record in any of the previous half-years and is due to the several causes enumerated in the report. I am taking further action on the several points in the report whereever such action is called for.

I have the honour to be
Sir,
Your most obedient servant,

Director of Food Supplies.
19/3

Report on the accounts of the Food Supply operations for the half year ending December 1945.

I attach hereto the consolidated Cash Account (statement No.I), the Profit and Loss Account for the period ending - - December 45 (statement No.II) and the Balance Sheet of the Food Supply operations as at end of 31-12-45 (statement No.III). The cash transactions have been agreed with the Treasury figures. The stock accounts have been agreed with the cash account and transfers of stock from district to district also tallied. The figures as regards outstanding liabilities like transport - - charges payable have been taken on the best information - - - available, after testing them with the quantities of stock -- acquired or handled, pending receipt of bills for railway credit notes issued etc. As in the previous half year, the Standard Cloth account has been separated from the Foodgrains account and the net results of the Fuel and Charcoal transactions of Bangalore City have also been worked out.

The Cash position.

During this half year, the receipts from all sources - - exceeded the payments by Rs. 1,73,43,999-0-6. This is a record surplus and is due to the increased sales towards the later - part of the half year, which became necessary on account of the worsening of the food situation. Thus, enough funds were - - available to pay the comparatively poor local purchases of -- Rs. 61,10,916-11-10 and the heavier outside purchases to the extent of Rs. 1,11,66,819-13-3.

From this half year, the Personal Deposit Accounts of the Deputy Commissioners were abolished and they were allowed to - draw money on Abstract bills as and when required against Letter of Credit issued, subject to rendering an account on Detailed - bills towards the end of the next month. Under this system, the surplus of the Food Supply transactions mostly remains in the - Treasuries and thus will be available for the general purposes

of

of Government. This scheme has been working well so far.

A reference was made in the previous report to the heavy overdraft of Rs. 89,63,555-6-4 in the Personal Deposit account of the Deputy Commissioner, Shimoga. This overdrawal has still not been adjusted and the matter is under correspondence with the Deputy Commissioner, Treasury Department, Shimoga. However, - - enough funds are available to adjust this overdraft within the amounts now available for the Food Supply operations.

Purchases.

Statements IV and IV-a show the details of purchases. The local purchases amounted to only Rs. 81,10,916-11-10 as against Rs. 1,26,39,439-6-6 in the corresponding half year of 1944. This also reflects the hardening of the Food supply situation. This was very nearly made up by increased imports from outside, the outside purchases for this half year being Rs. 1,11,66,819-13-3 as against Rs. 35,15,039-11-11 in the corresponding period of the previous half year. The balance under credit purchases payable on account of local acquisitions at the end of the half year was Rs. 30,41,797-3-9. Omitting from this a sum of Rs. 9 lakhs (in round figures) payable to the Forest Department and Fuel Supply Company on account of coal and fuel supplies and also a sum of more than Rs. 16 lakhs which was pending payment in Mandya and Mysore Districts on account of new paddy acquired towards the end of the half year, the balance of about Rs. 5 lakhs indicates that payments continue to be made fairly promptly. It is still - - - desirable to make payments immediately on delivery of grains or soon afterwards so as to avoid complaints from the suppliers and complications in accounts.

Sales.

The local sales during the half year amounted to - - - - Rs. 3,69,79,284-7-10 which is the record figure for any half year so far. This is Rupees one crore and twelve lakhs more than in the corresponding period of 1944. The increased sales are due to the difficult food situation which became more pronounced in the - -

in the later part of the half year.

This time, I have attached a statement (statement V) -- showing off-takes under Rice, Millets, Wheat and Wheat products in the several districts as compared with the off-takes in the corresponding half year of 1944. The increase in off-take in these three items only is more than 3 lakhs of pallas, there being increased issues under other articles also so as to make the difference in value Rs. 1,12,00,000/- as already stated.

The balance outstanding under credit sales at the end of the half year was Rs. 55,02,104-14-6. This amount was mostly due from the C and M Station, the Controller of Railway Food --- Accounts, the Gold Mining Companies and some Municipalities. The balance due from private parties was comparatively very small. It is necessary to keep a steady watch to recover these credit sale amounts promptly.

Closing Stock.

Statement VI shows the details of the closing stock on 31-12-45 worth Rs. 1,27,89,974-7-0. As compared with the -- corresponding half year of 1944, the stock under Ragi and other millets has gone down considerably, the decrease under the -- stock of millets being about one lakh of pallas. There is also a decline to the extent of the equivalent of about --- 30,000 pallas under wheat and wheat products. This decrease is slightly more than made up by an increase by the equivalent of 1,32,000 pallas under Rice and paddy.

As usual, the closing stock has been valued conservatively taking into account the cost price or the selling price whichever is less. They are also based on the stock verification certificates, the stock having been arranged to be actually verified at all centres as at end of 31st December 45.

The quantities under closing stock under the various items being fairly low, do not call for any special comments. The -- stock verification reports do not indicate any cases of heavy deterioration which may result in losses more than the usual -- margin.

Shortages.

Statement VII shows the shortages under the several -- articles for the whole State amounting to Rs. 189,274-4-0 This works out to 0.51 per cent on the total cash sales and compares favourably with the average shortage of about 1 per cent noticed in the previous half year. As usual, the shortages in rice has been heavy being Rs. 59,611-12-0 and this requires greater scrutiny over shortages under this item particularly in view of the difficult food situation. Another kind of shortage has come to notice under Ragi. In Kolar and Bangalore districts, the stocks acquired, kept in bags stated to contain 90 or 80 seers has been, in several cases, on stock verification by Audit staff, actually found to be more by one or two seers in each bag. This excess is generally not brought to account and there is loss of grains. This has been brought to the notice of the concerned -- authorities to take remedial action. There has been no noticeable improvement in the receipt of monthly shortage statements except from the Assistant Director of Food Supplies (Depots) and the -- Mysore District. The other districts continue to follow the -- unauthorised procedure of removing from accounts, the shortages noticed, as each consignment is disposed of, and it is only at the time of half yearly compilation of accounts by the Local -- auditors that these shortages come to light.

Lorries.

There were 163 lorries under the control of the Department. Statement VIII shows the details of sick and idle lorries and - the cost of working, for the lorries under the control of the Transport Officer at Bangalore. Four of the lorries are stated to have become completely useless. Details as regards the lorries -in the districts are not available. It is necessary to get -- regular monthly statements of working for the Government lorries in several places and review the cost of working particularly in view of the fact that keen competition is noticed on behalf of - private lorry owners to undertake Government work - - -

work especially at Bangalore.

Financial results of working.

The final result of the working of the Scheme during this half year is a loss of Rs. 4,25,454-9-5. This includes a loss of Rs. 47,953-5-11 in the Fuel and charcoal operations in Bangalore City. The loss of Rs. 23,17,751-3-11 to end of 30-6-45 was written off under Government sanction by reducing the amount of advance received from the Comptroller correspondingly which now stands at Rs. 2,07,35,698-12-4.

The loss during this half year has been the lowest for several past half years. This is mainly due to the increased sales. The main grains imported during the half year involving subsidy, are Bengal Rice and Millets from Hyderabad. Statement IX shows the subsidy involved on the imported grains amounting to Rs. 25 52,044/- The difference between this and the actual loss for the half year is due to the following reasons:--

1) Our selling prices for wheat and wheat products were fixed on the increased rate of Rs.9-3-0 per maund intimated by the Food Department of the Government of India and the increased prices at which we were purchasing Soji and Maida from the Hyderabad Mills at the time. Subsequently, due to the free gift of wheat by the Canadian Government, the prices were temporarily reduced to Rs.8-6-0 per maund. As we did not know when the prices would again be enhanced, our selling prices continued at the increased rates. The Food Department has since enhanced the prices, but for the entire half year, the benefit of the lower rates has accrued.

2) Compared to the sales, the transport charges are much less than in the previous periods. This is due to the result of tenders called for all over the State and absence of demand for transport for War purposes. This benefit is likely to continue in future periods also.

3) Due to all round scrutiny of the returns submitted by the mill owners and their bills, the illuvaries given by them are appreciably more than the illuvaries taken for calculation of

(1)

of selling rates. As the mill-owners have now understood their minimum responsibility as regards illuvaries and shortages and are submitting their returns fairly regularly, this benefit is also likely to continue in the future.

4) The items which involved heavy depreciation like Toor dhall, jaggery and to some extent Urid and Urid dhall also, were all -- disposed of at rates well within the provisions already made to meet loss in these cases. There were no new items requiring -- provision for deterioration.

5) Due to the absence of sufficient stocks, the transfer of -- foodstuffs from place to place was comparatively little. Our -- price structure takes into account transport charges for average conveyances and shortages in transit. When commodities are -- consumed in the locality from which they are acquired, as has -- mostly happened in the current half year, there is a noticeable margin.

Due to the above favourable factors some of which are -- likely to continue, it appears unnecessary and also complicating to show in future, the subsidy and net deficit separately. We may show the net deficit itself as the subsidy which the State had to give. It appears to be sound in principle to average selling -- prices between costs of local acquisition and outside acquisition in the interest of the general tax-payer and keep the net subsidy payable by Government fairly low, except in cases where quotas of foodstuffs are allotted to us from very distant places. As -- things are, our selling prices compare favourably with those of -- other deficit Administrations.

This loss of Rs. 4,25,454-9-5 does not take into account -- depot charges and charges on subordinate supervision amounting to Rs. 6,70,794/= which are now directly charged to Revenue -- Budget while they are actually chargeable to the Trading Account. If this is included, the total subsidy on Food Supply operations would be Rs. 10,96,248-9-5

There are no other items in the Balance Sheet which call for special remarks.

Standard Cloth.

Statements I and XI show the details of Standard Cloth -- transactions. Instead of the usual profit of 2 to 2 1/2 per cent on the sales, we have got a small loss of Rs. 15,139-9-3 due to the valuation of the closing stock at the recent reduced rates.

General.

As usual, I shall deal with the other items relating to -- Local and Central Audit and Accounts in the Annual Report to be submitted for the period ending June 1946.

With reference to correspondence ending with your U.O. note No 63 dated 7-6-46 on the above subject, I am directed to state that the difficulty in getting the monthly shortage statements in time cannot be understood and that the officers who do not attend to this may be warned that their failure will be reported to Government.

As regards lorries and transport work being handed over to private agency I am to state that this may be done as early as possible.

I have the honour to be, Sir, Your most obedient servant,

SECRETARY TO GOVERNMENT
FOOD DEPARTMENT
No. Str. 147
Date ... Subject ...

with reference to your letter No.SD.5962/A.145-46-3 dated the 16th November 1946, and subsequent D.O. reminder No.SD.10760 dated the 26th June 1947, calling for a report of action taken to insist on prompt review of statement of working of Government lorries, I have the honour to state that the Transport Officer, Bangalore has been reminded in the matter.

A report will be made to Government immediately on receipt on reply.

I have the honour to be,
Sir,
Your most obedient servant,

tgs.2

Director of Food Supplies.

Take for information.

When are the previous reps? Why are such loose sheets being sent?

No. SD/1426-27 Accts.

Office of the Director of Food Supplies,
Bangalore, dated: 11th August 47.

To

The Secretary to Government,
Food Department, Bangalore.

Sir,

Statement of working of Government lorries and its review.

- - - - - - - - - -

In continuation of my letter No. TRC.8429/46-7 dated 15-6-47 on the above subject, I have the honour to enclose a copy of letter No.TO-281/47-8 dated 25-7-47 received from the Transport Officer, Motor Vehicles, Bangalore in the matter. As explained by the Transport Officer, it will not be possible to prepare a statement of working of the Government lorries working in districts under the control of the Deputy Commissioners and to review it unless all the particulars called for in the prescribed standard trip sheet form are furnished by the Deputy Commissioners regularly and fully. On receipt of reports from the Transport Officer to the effect that the prescribed trip sheet form was not being adhered to and that information furnished was not complete, I addressed the Deputy Commissioners of Districts stressing the importance of these trip sheets and requesting them to submit them to the Transport Officer regularly in the prescribed form. Apparently, there has not been much improvement. I am however again addressing the Deputy Commissioners separately.

In the meanwhile, the Transport Officer is being instructed to prepare a statement of working of lorries in his charge for each half year and to submit the same with a note on points arising there-from.

SECRETARY TO GOVERNMENT
FOOD DEPARTMENT
No. 599
Date 14.8.48

I have the honour to be,
Sir,
Your most obedient servant,

Director of Food Supplies.

Copy of letter No.TO.281/47-48 dated 25th July 47 from the Transport Officer, Motor Vehicles, Food Supplies Department, Bangalore, to the - - Director of Food Supplies in Mysore, Bangalore.

Sub: Re. Report on the accounts of the Food Supplies Department for the half year ending 31-12-1945.

Ref:- Letter No.SD.3962/A 43-46-3, dated 16-11-46 from Government on the above subject.

With reference to your letter No.TRC.8429/45-46 dated 25th June 47 forwarding a copy of letter No.SD.3962/A.43-46-3, dated 16th November 46 on the above subject and calling for a report, I have the honour to state that statement No.VIII showing the details of performance of the lorries at Bangalore for the half year ending 31st December 1945 was worked out by the Audit Superintendent attached to this Department and the same was sent by him to the Auditor & Accounting Officer. However a copy of the same is also enclosed for ready reference. It has been worked out similarly by the Audit Superintendent for the subsequent periods also, viz., for the half year ending 30-6-46 and 31-12-46 on the information furnished by this office and has been directly sent by him to the Auditor & Accounting - Officer.

Regarding trip sheets that are being received from the Deputy Commissioner of Districts the information furnished therein is invariably - incomplete. I have made several references to you requesting to address the Deputy Commissioners of Districts under whom Government lorries were working.

Several communcations have also been made by you to the Deputy Commissioners stressing the importance of trip sheets and requesting them to send the same regularly every month in the prescribed form approved by the Director of Food Supplies. Several Deputy Commissioners, particularly the Deputy Commissioners of Tumkur and Chitaldrug Districts were incessantly reminded on the importance of trip sheets and they were requested to send the same in the prescribed form approved by the Director. A copy of the prescribed form of trip sheet was also sent several times. It has however not been possible to make a proper review as the information furnished by the Deputy Commissioners under whom Government lorries were working has been inadequate and insufficient and not in one uniform form. However a review of the trip sheets so far received from the several - Deputy Commissioners was made after scrutiny and a report has been submitted in this behalf in this office letter No.T.O.3116, dated 24th March 1947, copies of which have also been sent to the Deputy Commissioners. The particulars given in the tripsheets received from the Depty Commissioners are however being posted up in a register opened at this office. I may be permitted to state that no correct and proper review is possible unless the Deputy Commissioners furnish all the particulars required as per the tripsheet form approved by the Director of Food Supplies.

"C O P Y"

Director of Food Supplies. 14/8

Dear Sir,

Subject: Report on the accounts of the Food Department for the half-year ending 31-12-45.

With reference to your letter No.SD.2484 dated 4th October 1947 and subsequent reminders on the above subject, I write to state that the information received from the several Unit Officers being incomplete, they have again been addressed to furnish the same in a complete form and their replies are awaited. They have also been reminded separately in the matter. On receipt of the information, a report will be made in consultation with the Auditor and Accounting Officer.

Yours sincerely,

Abdul Khader
